Empodera Global Ecosystem

Empodera Global is an international ecosystem for women's development, professional positioning and expansion.

Founded by Rosa D. Pires, it connects women with experiences, knowledge, relationships and new professional possibilities, creating bridges between individual development, positioning and expansion.

At the heart of the ecosystem is the M.A.E. Method - Mindset, Self-Esteem and Expansion, a proprietary methodology that helps women recognise the value of what they have already built, strengthen their professional positioning and turn awareness into movement and new possibilities for expansion.

Leadership and Vision

Rosa D. Pires is the founder of Empodera Global, creator of the M.A.E. Method, mentor, entrepreneur, author and international speaker.

With more than 18 years of entrepreneurial experience across different sectors, she has built a professional journey that brings together human development, emotional intelligence, professional positioning and expansion.

As the creator of the M.A.E. Method - Mindset, Self-Esteem and Expansion, Rosa helps women recognise the value of their knowledge, experience and professional journey, strengthening the way they position themselves and transforming what they have already built into authority, movement and new professional possibilities.

Empodera Mentoring

A premium professional repositioning and expansion mentoring programme for women who already have knowledge, experience, a professional journey and established skills, but recognise a gap between what they are capable of delivering and the professional space they currently occupy.

Through the M.A.E. Method, **EMPODERA Mentoring** works across mindset, self-esteem, positioning, structure and movement, helping each woman recognise her value, communicate her expertise, strengthen her authority and create new possibilities for professional expansion.

Empodera Mentoring

M – Mindset

Mindset to choose - Develops awareness of beliefs, patterns, blocks, fears, vision and decisions that influence professional choices and movement.

A – Self-Esteem

Self-Esteem to sustain - Develops recognition of value, professional identity, confidence, self-worth, positioning and authority.

E – Expansion

Expansion to turn awareness into movement
May involve structure, communication, offers, visibility, sales, leadership, growth and new professional possibilities.
